

Ural Ozbayan

E-mail: ural2001@gmail.com / [Linkedin](#)

Summary: Front-End Developer with more than 5 years of experience building responsive, high-performance web platforms. Skilled in Vue.js, Nuxt.js, TypeScript, and modern UI frameworks like Naive UI. Rebuilt a full LMS from Angular to Nuxt.js, improving performance and SEO, and integrated analytics tools like Amplitude.

Actively leveraging AI-assisted development workflows, including OpenAI Codex, MCP integrations, and custom AGENTS.md configurations, to efficiently handle repetitive and time-consuming tasks such as UI implementation, boilerplate generation, refactoring, documentation, and code reviews. Using AI tools to accelerate delivery, improve code quality, and focus more on architecture, business logic, and solving complex engineering challenges.

Passionate about clean code, performance optimization, and creating user-friendly experiences. Strong collaborator with a sharp eye for design, architecture, and detail.

Key skills: Vue.js | Nuxt.js | JavaScript | TypeScript | HTML | CSS | VueUse | Pinia | Nuxt UI | Naive UI | Angular | React | React Native | Svelte | Git | GitLab | REST | GraphQL | Codex

PROFESSIONAL EXPERIENCE

Parta (Nov 2022 – July 2025)
